

INTEGRATED FINANCIAL SOLUTIONS FOR WEALTH MANAGERS RETAIL STOCKBROKERS INSTITUTIONAL STOCKBROKERS

JHC, through its Figaro software, offer IT solutions and services to the wealth management and stockbroking community.

For over 25 years we have worked with our clients to help them successfully address business-critical technology challenges, improving the efficiency and competitiveness of their operations whilst at the same time providing a world-class multi-currency, multi-entity platform on which to run their business.

Three of the top four fastest growing Wealth Managers are Figaro users and over 50,000 trades a day are processed using a Figaro system.

Figaro provides a cost-effective, flexible and fully integrated Front to Back Office solution for Discretionary and Advisory Wealth Managers eliminating the need for costly interfaces.

The system has been designed to support Portfolio Managers and Client Advisors with the key functionality they require, including; maintenance and interrogation of 'Know Your Client' information; real-time access to client standing data and asset positions, together with a fully integrated capability to enter their own orders across a comprehensive range of financial instruments.

FIGARO PROVIDES:

- Performance analysis
- Pre-trade support
- Modelling, rebalancing and switching
- CGT
- Risk analysis
- Order management

THIS INTEGRATED SOLUTION OFFERS THE FOLLOWING BENEFITS:

- Real-time positions
- Less system-to-system reconciliation
- Straight through processing
- Reduced numbers of suppliers

JHC has offices in London, Birmingham and Newcastle
